From MOE bulletin 15.08.22:

Returning to school following illness

The Ministry of Health has confirmed that the guidance for returning to schools following vomiting or diarrhoea has not changed. If a child is free of those symptoms for 48 hours, they can attend school again.

We have updated the winter wellness guidance for parents, caregivers and whānau to reflect the following points:

- If a child has been unwell with a respiratory illness other than COVID-19, they can return to school 24 hours after they have significantly improved and are behaving/eating normally.
- Following vomiting or diarrhoea, a child should be symptom free for 48 hours before they can return.
- If they still have a runny nose or dry cough without any other symptoms such as a fever, vomiting or diarrhoea, then they are unlikely to be infectious and can be considered well enough to attend school.
- In general, a doctor's certificate or clearance should not have to be provided for a child to go back to school after being unwell.
- Also the week 4 review of masking - the MOE recommends the continuation of masking for year 4 and above and 12 years and over on school transport.
