Enrolment Schemes - Morrinsville

The Ministry of Education has identified that Morrinsville College, Morrinsville Intermediate School, Morrinsville School and David Street School require enrolment zones to be realigned or to be established in order to prevent overcrowding at these schools and has given the school boards notice of this.

After consultation with the school boards, we have developed proposed enrolment schemes for Morrinsville College, Morrinsville Intermediate School, Morrinsville School and David Street School under section 72 of the Education and Training Act 2020.

As part of this process, we are consulting with the school communities and with people living in the area for which the schools are a reasonably convenient school.

The enrolment schemes could affect which school a student will be entitled to enrol in.

We will be holding a community consultation meeting at Morrinsville College on Wednesday 17 May 2023 at 6.00pm to provide further information and gather feedback from the community.

A copy of the proposed schemes can be obtained by email from Waikato. EnrolmentSchemes@education.govt.nz or viewed at <https://consultation.education.govt.nz/education/enrolment-schemes-morrinsville>

If you have any comments about the proposed enrolment scheme for Morrinsville College, Morrinsville Intermediate School, Morrinsville School and/or David Street School that you would like to be included in the final report about this proposal, please forward them to Waikato. EnrolmentSchemes@education.govt.nz by Friday 7 June 2023.

ROOM 4 - ST JOHN

St John's is here at school this week, teaching us all about first aid and how to keep ourselves and others safe in an emergency. In Room 4's lesson this morning we learnt all about how to assess and respond with DRSAB (Danger, Response, Send for help, Airway & Breathing). When in an emergency, we were taught to use our sight, hearing and smell to identify any dangers around us. We also learnt how put someone in the safest secure side position (by making a 'mountain knee' and 'seatbelt arm', then using their knee to roll them onto their side, making their 'seatbelt arm' high-5 the ground and then clearing their airway). We now also know the basics on how to assist someone with bleeding, swelling or burns and how to also administer an epi-pen! It was a jam packed lesson that our tamariki really enjoyed. Thanks St John!
