ST JOHN

Yesterday we went to room 10 because in room 10 we saw Alicia. She works at St Johns. She taught us how to recover someone who is unconscious. She taught us what would happen if we did not know what to do and what would happen if we did. She taught us the five finger rule and a recovery position. The five finger rule. The first rule is check if it is ok to help them. Number two, shake their shoulder and yell their name at them. number 3. Just stand over them and look at them. Are they bleeding? Are they breathing? Are they Asleep Rule 4, pillow, mountain, seat belt arm, roll, make the seat belt arm high five the ground. Rule 5, the final rule is to call 111.

By Ashton Moore, Room 11, Year 3.

ST JOHN

Alicia came from the St John ambulance. She taught us what to do when someone is unconscious. She also taught us the five finger rule. The first one is to check if it's safe to come over and help. The second one is to take a look and see if they're bleeding, breathing or asleep. The third one is kneel down and whatever side you kneel down on is the side of the pillow arm and they will roll onto it. The fourth one is put up the leg on the opposite side of the pillow arm into a mountain position. The last one is to grab the arm on the same side as the mountain leg, pull it across to the other side and then pull them onto their side and make their seatbelt arm high five the ground and that's the recovery position. Go and call 111.

Morrinsville Museum Visit

Our senior school has been visiting the Morrinsville Museum, with another two classes scheduled for this week.

Our focus is the Mana Whenua Exhibition and The Colonial Cottage. The kaupapa is supporting our focus around local curriculum, Aotearoa NZ Histories and local Morrinsville history.

We would like to encourage our whaanau to take their tamariki down to visit the museum if you haven't done so already. What a wonderful display of local history. You never know who you may see hanging on the walls in the old school photos ;)
